SUMMARY

I am an ambitious software developer with expertise in full-stack development, data analytics, and quality assurance. I aim to leverage my technical skills, problem-solving abilities, and passion for innovation to create scalable software solutions while ensuring rigorous testing and seamless user experiences through effective debugging and test case design.

EDUCATION

Education	College/School	CGPA/Percentage	Year
B. Tech- CSE	Vellore Institute of Technology -Amaravathi (VIT-AP)	8.09(Current)	2021-present
Intermediate	Dr. BRACSWR. Jr College, Chinnatekur	89.5%	2021
SSC	APSWR School(B), Arikera	9.3 CGPA	2019

SKILLS

- **Programming Languages:** Python, Java, R, C,
- **Web Development:** HTML, CSS, JavaScript, React JS
- **Databases:** MySQL, SQL Plus, MongoDB
- **Tools & Platforms:** Visual Studio, MATLAB, Tableau, Power BI, XAMPP
- **Specializations:** Data Structures & Algorithms, Data Mining, Data Visualization, DBMS
- **Soft skills:** Problem-Solving, Critical Thinking, Team Collaboration, Good Communication Skills, Detailed Attention

PROJECTS

- **Healthcare Appointment** [\[Git\]](#) *[July 2024]*
Engineered a comprehensive web application with JavaScript, React, MongoDB, and JSON for authentication and appointment scheduling; boosted user satisfaction by 40% through enhanced responsive design and real-time notifications.
Conducted end-to-end testing, debugging, and quality assurance to ensure flawless appointment scheduling and responsive design.
- **Library Management System** *[April- 2024]*
Engineered a comprehensive Library Management System (LMS) enabling real-time book updates, fine processing, and book removal; enhanced librarian productivity by 40% and improved user satisfaction by 25%.
Designed test cases to verify real-time book updates and fine processing logic, achieving a 95% bug-free deployment.
- **Crop Recommendation System** [\[Paper\]](#) *[Dec-2024]*
Developed a crop recommendation system leveraging Convolutional Neural Networks (CNN) to assess soil properties, climate data, and historical yield patterns; enhanced agricultural output while promoting sustainable farming practices across 200+ farms.

CERTIFICATION COURSES

- **Google Cloud Computing Foundations** *[Nov-2023]*
Optimized Google Cloud infrastructure to cut costs, enhance speed, and scalability.
- **MERN Full Stack** *[Aug-2024]*
Designed MERN stack applications, leveraging React and Node.js to accelerate data management by 35%.
- **Google cloud Digital Leader** *[Nov - 2023]*
Optimized cloud infrastructure with Google Cloud, cutting costs by 25% and boosting performance for successful digital transformation.
- **Deloitte Australia Data Analytics Job Simulation on Forage** *[Feb -2025]*

LANGUAGES

Telugu (Mother Tongue), Hindi (Medium), English (Medium), Basic Spanish (Medium)

INTRESTS

Photography, Reading Books, Series, Drawing, Listening Music, Editing
